## 2019 Mid-Term Scores

The following data is a mid-term score for each representative and senator based on pro-liberty and anti-liberty roll call votes through crossover. It represents a simplified version of the scoring that is completed at the end of the session. Votes in this report are unweighted with regard to the liberty impact of each bill and no adjustments have been made for pro- or anti-liberty bill sponsorship. As is the case with the final Liberty Rating, missed roll call votes negatively impact the score regardless of whether an absence was excused or not.

Endorsed legislators and full or lifetime members of the NHLA can always check on the detailed voting records as compared to our recommendations at <http://gencourtmobile.com>.
